

Our family listens regularly to K-LOVE radio on 88.1 FM. It provides programming not available elsewhere. It provides announcements of activities happening in our local area. I don't know the size of the K-LOVE audience in our area, but do know of others who rely on it as much as our family. One doesn't have to look very hard to spot a K-LOVE bumper sticker while on the road, so I do believe it is popular. I believe losing K-LOVE would have a negative effect on my local community. I know for a fact it would be sorely missed by my family. K-LOVE provides Christian music that appeals to grade school kids and teens. No other available Christian station provides music that has such appeal to this impressionable and important segment of our community. Please don't replace K-LOVE with a LPFM broadcaster. Losing K-LOVE would send some of our local young people looking for other stations. Some I'm sure would end of listening to stations that are much less likely to keep them headed in the right direction. Again, please do not replace K-LOVE with a LPFM broadcaster in the Omaha NE area. people looking for another
